## DETAILED ACTION

### *Election/Restrictions*

Applicant's election with traverse of Group I in the reply filed on December 5, 2005 is acknowledged. The traversal is on the ground(s) that the previous examiner did not require an election and the prosecution has been lengthy. This is not found persuasive because while I regret that the election was not required earlier as I would have done, I believe that the substantial number of new claims is a burden, merits reconsideration of the previous examiners failure to require an election and the election requirement is maintained. Clearly, the groups as set forth are patentably distinct and as set forth below, since applicant has a generic claim allowed then applicant has the opportunity to reunite claims drawn to the non-elected species covered by the allowed generic claim, if all claims to those non-elected species include all the limitations of the allowed generic claim.

The requirement is still deemed proper and is therefore made FINAL.

Claims 122-162 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on December 5, 2006.

Claims 114-121 are allowable. The restriction requirement between groups of species, as set forth in the Office action mailed on November 22, 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 122-162, directed to the other groups of species are withdrawn from

Art Unit: 3677

further consideration because they do not require all the limitations of an allowable generic linking claim, and applicant has indicated that claims 114-122 also read on Group II, as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim(s) presented in a continuation or divisional application include all the limitations of a claim that is allowable in the present application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter to provide claims depending from claim 114 or including all limitations from that allowed claim that would read on the withdrawn groups of species (Group II) readable on claim 114. Failure to do so or take other action appropriate for the traversal of the restriction requirement will result in the cancellation of the withdrawn claims and passing the case on to issue with claims generic to Group II then all claims directed to the species of Group II would possibly be subject to a double patenting rejection as indicated above.
